WORK EXPERIENCE

HSR hi-tech Solutions

Associate Software Engineer   Jun 2024 - Present

- Contributed as a full-stack developer with expertise in ReactJS, Firebase, PHP, MySQL, HTML, CSS, and JavaScript to design, develop, and deploy robust web applications.
- Played a pivotal role in the software development lifecycle, including requirements gathering, architecture design, implementation, testing, and deployment.
- Served as a Data Analyst, leveraging Python to analyze data and deliver actionable insights for business decision- making.

SKILLS

Languages: C++, Python
Web Development: HTML, CSS, JavaScript, jQuery, PHP, Node.js, Express.js, React, Bootstrap, Tailwind CSS
Visualization Tool: Pandas, Matplotlib, Seaborn, Excel,
Developer Tools: Git, GitHub
Databases: SQL, My SQL, MongoDB, Excel

PROJECT

E-commerce web app | ReactJs, Tailwind CSS ↗

- Developed a scalable e-commerce platform with dynamic product catalog management, leveraging ReactJS for a seamless front-end experience and Tailwind CSS for responsive, modern design.
- Optimized front-end performance and enhanced user experience through responsive design and streamlined client server interactions, creating a smooth and intuitive shopping experience.

Car rental web application | HTML, CSS, JavaScript, PHP and MySQL

- Developed a full-stack web application for Car rental web app using HTML, CSS, JavaScript, PHP and MySQL.
- Implemented secure form handling with PHP to process user input and store data in a MySQL database.

Weather app I HTML, CSS, JavaScript, Bootstrap ↗

- Developed a dynamic weather application using HTML, CSS and JavaScript, providing real time weather information to users.
- Utilized HTML5 geolocation API to retrieve the user`s location coordinates and fetch accurate weather data.
- Designed and implemented a responsive user interface using CSS and flexbox, ensuring optimal display across various devices.

CERTIFICATE

Python (Code Tantra)

Data Base Management System (Infosys)

Problem solving (HackerRank)
